The Impact of the COVID-19 Emergency on the Quality of Life of the General Population, Part II

Message from the Guest Editor

COVID-19 is a pandemic that has forced many countries to implement various restrictive measures to prevent its spread. These restrictive measures and quarantine periods have caused an increase in anxiety crises, fear of contagion and post-traumatic stress disorder (frustration, boredom, isolation, fear, insomnia, difficulty concentrating). Although only a few years have passed since the beginning of the COVID-19 pandemic, a large body of scientific literature is already present on the impact that the worldwide spread of the virus has had on people's quality of life. The COVID-19 pandemic represents a catastrophe of global dimensions, the first traumatic event on a global scale in the most recent history of humanity.

Many studies have reported a post-traumatic stress disorder (PTSD) element during the COVID-19 pandemic. We welcome manuscripts on the impact of the COVID-19 emergency on the quality of life of the general population, children and people with disabilities. We will be happy to review your contributions to our Special Issue in the *Journal of Clinical Medicine*.

About the Journal

Message from the Editorial Board

Journal of Clinical Medicine (ISSN 2077-0383) is an international, peer-reviewed, open access journal dedicated to advancing clinical and preclinical research. Our Editorial Board and staff are committed to delivering cutting-edge, timely, peer-reviewed articles spanning the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and impactful research articles, as well as reviews that are clinically significant and relevant to the full spectrum of medical disciplines. All full texts are archived in PubMed Central and indexed in SCIE (Web of Science), Scopus, PubMed, and other major databases. We invite you to submit your manuscript for publication, as well as join our community as a reviewer or reader online.

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
