

Special Issue

Cancers of the Pelvic Organs: Contemporary Management and Actions for Improving Patients' Quality of Life

Message from the Guest Editors

In our Special Issue of *JCM*, we focus on the management of neoplastic diseases of the pelvic organs (i.e., the lower urogenital system and the lower gastrointestinal tract) in both women and men. Effective treatment of these neoplasms most often involves a combination of surgery, radiotherapy, chemotherapy, hormone therapy, immunotherapy, and targeted therapy, including gene therapy. Hence, we treat this Special Issue of *JCM* as multidisciplinary and aim to target a wide audience, including gynecologic oncologists, oncologic urologists, urogynecologists, urologists, physiotherapists, psychologists, radiotherapists, clinical oncologists, and surgeons. We are interested in publishing prospective, retrospective, and review studies as well as interesting case reports. We would like the submitted manuscripts to address treatment complications, methods of their prevention, assessment of patients' quality of life, supportive therapies, new technologies affecting life quality, life expectancy, and overall survival. We encourage you to share your recent experiences in these areas with us.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!
