State of the Art of the Management of Cardiac Surgical Intensive Care Patients

Message from the Guest Editors

In the last two decades, the landscape of cardiac surgery has deeply changed, due to the combined effect of an increased risk profile of patients and a significant advancement of surgical techniques. The role of minimally invasive cardiac surgery has been strengthened and the extraordinary expansion of transcatheter procedures pushed towards the development of hybrid strategies, encompassing both valvular and coronary artery disease, representing a true revolution of the clinical field, especially for those patients who were previously considered inoperable. Moreover, the pandemic of COVID-19, with its supposed long-lasting effects, could force a global rethinking of healthcare systems and should prompt further studies, aimed to clarify the possible interplay between SARS-CoV-2 and cardiovascular diseases. For this Special Issue, we aimed to encourage submissions that focus on the most controversial and cutting-edge topics in the field. Please click [here](#) to find information! Welcome to contribute!

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi
