

## Special Issue

# New Frontiers in Cardiovascular Intervention

### Message from the Guest Editor

Interventional cardiology is one of the fastest evolving areas of modern cardiology. In the recent years, multiple novel techniques and treatment approaches regarding valvular or complex coronary interventions as well as related medical therapies have been introduced. While it is not surprising that these approaches are helping to better address clinical problems, they have also raised many additional questions that need to be addressed, such as determination of the optimal anticoagulatory strategy for structural interventions. It is the aim of this Special Issue to provide an update regarding the current and upcoming therapeutic options in the field of cardiovascular interventions. Therefore, we would like to invite the submission of original research, state-of-the-art reviews, and viewpoints. In particular, we would like to encourage the submission of manuscripts covering important items regarding the related medical therapy needed for an optimal long-term outcome of these interventions. We look forward to receiving your submissions!

### Guest Editor

Prof. Dr. Willibald Hochholzer

Department of Cardiology and Angiology II, University Heart Center  
Freiburg · Bad Krozingen, Suedring 15, 79189 Bad Krozingen, Germany

### Deadline for manuscript submissions

closed (31 March 2021)

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
