Special Issue

Clinical Advances in Multiple Sclerosis

Message from the Guest Editor

Multiple sclerosis is an inflammatory, autoimmune-mediated chronic disease that affects the central nervous system in young adults. There are several major unmet needs in the understanding and management of MS: the neurodegenerative component of MS pathogenesis remains an enigma, novel specific and sensitive biomarkers and imaging techniques to monitor disease activity and progression are needed, and new drugs with high efficacy and a good safety profile are required to stop the neurodegenerative process as well as provide regenerative potential.

This Special Issue will focus on recent advances in the pathogenesis, diagnostic/disease monitoring methods, and treatment of MS. We plan to include reviews (updates on the pathogenesis of MS, prodromal multiple sclerosis, biomarkers, high field MRI imaging, novel drugs in the pipeline) and original papers detailing novel biomarkers and clinical research.

Prof. Dr. Konrad Rejdak

President of Polish Neurological Society, Department of Neurology, Medical University of Lublin, 20⬚954 Lublin, Poland

Deadline for manuscript submissions

closed (15 September 2022)

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine*'s (*JCM*) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès
Internal Medicine Department, University Hospital Strasbourg, 67000 Strasbourg, France

Prof. Dr. Kent Doi
Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:
indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:
JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:
manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
