

Special Issue

Clinical Care for Neonatology and Paediatrics

Message from the Guest Editor

With advocacy from parent organizations and the recognition of the value of parental engagement in the care of children, neonatal intensive care and paediatric health service delivery have increasingly adopted co-design approaches to shape innovations in clinical care. In general, clinicians, administrators and the parents of sick newborns and children agree that a move towards more family-centred care has multiple benefits. However, family-centred care with variable approaches to implementation and evaluation. Greater clarity is needed regarding specific frameworks and models of family-centred care that are effective within different populations in different contexts. Given expectations of the greater involvement of families in adult acute care, evidence of effective clinical care in neonatal and paediatric settings has demonstrated synergies and spin-offs in those settings. The present Special Issue of the Journal of Clinical Medicine, Clinical Care for Neonatology and Paediatrics, aims to provide high-quality evidence of promising and effective interventions for improving the quality of clinical care in neonatal and paediatric settings.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
