Unusual Clinical Presentation of COVID-19

Message from the Guest Editor

Since 2019, the SARS-CoV2 outbreak started and our lives have changed significantly since then. The increasing number of submissions and articles to the scientific literature from around the world has contributed to the knowledge of this virus and its related infectious diseases. Everyone that has contributed to this literature has described their working experience, and COVID-19 has been associated with a number of clinical abnormalities per se and/or during treatment. Immunopathological complications and thrombotic complications have been reported since the first cases from China, as well as the description of other complication such as liver and cardiac damage associated with COVID-19. Thus, the aim of this Thematic Series is to report unusual clinical presentations or complications occurring from COVID-19, and scientific contributions on these topics may be submitted in the form of original articles and reviews. We look forward to receiving your clinical experience in the daily clinical management of COVID-19 considering diagnostics and therapeutic aspects.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi
