

## Special Issue

# Clinical Frontiers in Geriatric Oncology

### Message from the Guest Editor

The number of older cancer patients will constitute a real emergency in the coming years, especially in Western countries. The causes of this phenomenon are partially due to the increasing age of the population and also due to the incidence of tumors, which increases over the years. This will have dramatic economic and social consequences for patients' families and may even threaten the solvency of national health systems. However, older patients constitute an extremely heterogeneous population. Oncological therapies cannot therefore be generalized because biological and physiological age take on different characteristics in these patients, among other things that are not well represented in clinical trials. The aim of this Special issue is to take stock of the most innovative therapies in the treatment of cancer and to verify their impact and sustainability in the geriatric age.

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andr s

Internal Medicine Department, University Hospital Strasbourg, 67000  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
