

Special Issue

Advances in Clinical Management of Patients Undergoing Nephrectomy

Message from the Guest Editor

Focuses on advances in the treatment, management, and support of patients with renal cancer undergoing nephrectomy. Potential topics include but are not limited to:

- Advances in minimally invasive techniques of nephrectomy;
- Advances in clinical management of patients undergoing nephrectomy;
- Psychological distress related to nephrectomy;
- Nephrectomy approach and related outcomes;
- Advances in robotic nephrectomy;
- Personalized treatment approach in renal cancer;
- Machine learning and nephrectomy;
- Artificial Intelligence and nephrectomy;
- Biomarkers and impact on outcomes after nephrectomy;
- Patient care and support before and after nephrectomy.

In light of these new advancements and needs, the *Journal of Clinical Medicine* has launched a Special Issue on “Advances in Clinical Management of Patients Undergoing Nephrectomy”. We are prioritizing high-quality original studies but also welcome well-designed meta-analyses and reviews. We look forward to your contribution.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief
