

## Special Issue

# Advanced Analytical Methods in Clinical Diagnosis and Therapy 2.0

### Message from the Guest Editors

In this Special Issue, we invite manuscripts dealing with advances in healthcare/clinical practices, the study of direct observation of patients and general medical research, and ethical and public health issues, without being limited to them. Both original research and review articles are welcomed.

Original research papers should describe the development, characterization/evaluation, simulations, and utilization of different advanced analytical methods in clinical diagnosis and therapy, and reviews should provide an up-to-date and critical overview of state-of-the-art of those methods. The subject areas are shown at <https://www.mdpi.com/journal/jcm/about>.

**Keywords:** Analytical methods; Diagnosis; Therapy; Clinical laboratory; Medical imaging; Precision medicine; Telemedicine; Rehabilitation medicine
