

## Special Issue

# Management of Complex Arrhythmias

### Message from the Guest Editor

There have been numerous advances in the management of atrial and ventricular arrhythmias over the past several decades. With advances in cardiovascular care resulting in increased longevity of patients with heart disease, the incidence and prevalence of arrhythmias continues to increase. Therapies such as antiarrhythmic drugs, catheter ablation, autonomic modulation, and noninvasive ablation have been increasingly utilized to control arrhythmias. There is a continued drive to identify novel therapies for management of complex arrhythmias to help to improve quality of life and reduce mortality. Studies exploring multiple treatment strategies for arrhythmias (pharmacologic, procedural, noninvasive, etc.) that can advance the field are welcome in this Special Issue. Original investigations, review articles, and short communications are welcome. Case reports will not be considered. In summary, this Special Issue aims to summarize the clinical treatment options for complex arrhythmias.

### Guest Editor

Dr. Jackson J. Liang

Cardiac Arrhythmia Service, Division of Cardiovascular Medicine,  
University of Michigan, Ann Arbor, MI, USA

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
