Treatment of Cornea and Ocular Surface Diseases

Message from the Guest Editor

Ocular surface diseases range from mild forms of keratoconjunctivitis sicca to severe conditions, such as corneal ulcer that impair cornea's transparency. In such cases, keratoplasty may be required to restore ocular integrity and/or to rehabilitate the patient's vision. Optimization of the ocular surface prior to surgery is essential to achieve success and includes maximizing tear function, restoring normal lid anatomy and function, and ensuring an adequate supply of limbal stem cells. These vital steps help to enhance the survival and clarity of the subsequent corneal graft. We invite researchers to submit original research and review articles on cutting-edge treatments for the management of cornea and ocular surface diseases.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
