

Special Issue

Corneal Surgery: From Innovation to Clinical Praxis

Message from the Guest Editor

It is a pleasure to announce the coming Special Issue of *Journal of Clinical Medicine* on “Corneal Surgery: From Innovation to Clinical Praxis.” We invite cornea specialists, residents, general ophthalmologists, optometrists, clinical scientists in vision research, and those engaged in the biocompatible materials sciences to contribute articles to this Special Issue. We welcome retrospective and prospective studies, case series, and case reports of relatively novel corneal surgeries and their outcomes. The quest to maintain and improve eye health as well as prevent eye disease is the eye professional’s goal. Let us take the time to contribute to the understanding of innovative corneal biomaterials, platforms, and procedures for the benefit of our patients, the general public, medical practitioners, and eye health providers.

- corneal transplantation
- endothelial keratoplasty
- DALK
- bowman layer transplantation
- DMEK
- corneal inlay
- corneal onlay
- allogeneic corneal transplants
- corneal cross-linking
- femtosecond laser
- excimer laser

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief
