

## Special Issue

# Clinical Advances in Cosmetic Dentistry

### Message from the Guest Editor

Dental treatments must meet a series of objectives: restore health, recover function, and achieve aesthetics. The objectives of this Special Edition are the presentation of new restorative protocols with minimal intervention, fixed prosthesis treatments with aesthetic results for both teeth and implants, peri-prosthetic treatments with health results and gingival harmony, basic and surgical periodontal treatment to achieve gingival aesthetics, new tooth whitening therapies, treatment of developmental defects of the tooth, behavior analysis of new prosthodontic materials, and orthodontic treatment in improving the aesthetics of the smile.

The scope of this Special Issue is to provide an overview of recent advances in the field of aesthetic dentistry. Researchers in this field are therefore encouraged to submit an original article or review to this Special Issue (case reports and short reviews will not be accepted).

**Keywords:** gingival treatment; BOPT; dental implants; dental ceramics; orthodontics; teeth whitening; white spots; fixed prosthesis; dental aesthetics
