

## Special Issue

# *Helicobacter pylori*-Associated Intestinal Diseases and Beyond

### Message from the Guest Editor

*Helicobacter pylori* has been implicated in the pathogenesis of a number of digestive tract disorders. Disease outcome is dependent on many factors. There is active research to explore the complexities of *H. pylori* infection, seeking to explain why some individuals have asymptomatic infection, whereas others experience clinical disease. Likewise, this Special Issue covers advanced research focused on intestinal disorders, presenting insights into both established and emerging pathogenesis, diagnostics, and treatments. A specific focus will be on personalized medicine and advanced diagnostic tools in intestinal disease. Additionally, artificial intelligence is revolutionizing diagnostics, enabling faster and more accurate disease identification, predictive modeling, and patient monitoring, which are critical for early intervention. With this Special Issue, we aim for gastroenterologists and researchers to gain access to the latest findings, enabling them to provide innovative and effective patient-centered care.

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
