Novel Strategies for Diagnosis and Treatment of Autoimmune Diseases

Message from the Guest Editor

Autoimmune diseases are a group of complex disorders where the immune system mistakenly attacks healthy cells. Diagnosing and treating these conditions has long posed significant challenges. However, recent advances in medical research and technology are ushering in an era of novel strategies that promise to revolutionize patient care in this field. This Special Issue, titled "Novel Strategies for Diagnosis and Treatment of Autoimmune Diseases," is dedicated to exploring these groundbreaking developments. We delve into innovative diagnostic techniques, drawing on molecular biology, genetics, and bioinformatics that allow for early, accurate detection. This Special Issue also explores emerging therapeutic approaches, emphasizing precision medicine and personalized treatments tailored to individual genetic and molecular profiles. Finally, we examine new immunomodulatory treatments and advancements in biomarker discovery. Our goal is to foster dialogue, inspire further research, and inform clinical practice, moving us closer to effectively managing autoimmune diseases.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
