Contemporary Oral and Maxillofacial Surgery: Expert Consensus and Best Practices

Message from the Guest Editor

We are pleased to announce a forthcoming Special Issue of *Journal of Clinical Medicine* titled “Contemporary Oral and Maxillofacial Surgery: Expert Consensus and Best Practices.” This Special Issue aims to highlight the latest advancements, clinical innovations, and multidisciplinary perspectives shaping the future of oral and maxillofacial surgery. We invite researchers, clinicians, and thought leaders in the field to submit original research articles and review articles that address the following:

- Evidence-based surgical techniques and protocols;
- Advances in digital planning, navigation, and minimally invasive approaches;
- Management of complex maxillofacial trauma and pathology;
- Innovations in reconstructive and esthetic surgery;
- Interdisciplinary practices and guidelines for improved patient care.

This Special Issue will serve as a platform for sharing best practices and fostering international collaboration among specialists dedicated to improving outcomes in oral and maxillofacial surgery. We encourage submissions that not only reflect scientific rigor but also provide practical insights that can be implemented across diverse clinical settings.
