

Special Issue

Clinical Advances in Breast Reconstruction: Treatment and Management

Message from the Guest Editor

We are excited to introduce this Special Issue, "Clinical Advances in Breast Reconstruction: Treatment and Management", for the *Journal of Clinical Medicine*. Certainly, the field of breast reconstruction has made tremendous strides in recent years, and we hope to provide clinicians with a broad and comprehensive overview of these new developments, as well as what is emerging on the horizon. This Special Issue will encompass a wide spectrum of topics involving technological advancements, robotic surgery, and enhanced recovery protocols for prosthetic and autologous tissue breast reconstruction.

Guest Editor

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi
