

## Special Issue

# Clinical Management in Female Urology

### Message from the Guest Editor

Female urology is a sub-specialty of Urology, and it covers a group of conditions that are experienced by women with a deep influence on their quality of life. This evolving field is powered by significant advances in areas including urinary incontinence, recurrent UTIs, overactive bladder, pelvic organ prolapses, pelvic floor disorders, bladder pain syndrome, urinary tract fistulae, and urinary microbiome. Many healthcare professionals, such as urologists, gynecologists, nurses, and physiotherapists, are involved in the management of women affected by these urological diseases supporting an interdisciplinary approach to achieve the best results for women. In the last few years, following clinical and translational research, many innovations (robot-assisted surgery, mini-invasive procedures, and new conservative pharmacological solutions) have been introduced in real-life practice with great impact on personal and public health. Despite the availability of several international guidelines, there are some uncovered “grey zones” that require further clinical experience and a more accurate scientific debate.

### Guest Editor

Dr. Vito Mancini

Department of Urology and Renal Transplantation, University of Foggia, Foggia, Italy

### Deadline for manuscript submissions

closed (20 January 2024)

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
