## Delirium in ICU

### Message from the Guest Editors

Delirium is recognised as the most frequent and severe form of acute brain dysfunction in critically ill patients with sepsis. Delirium presents a wide range of manifestations and is associated with early and long-term consequences, such as increase in the length of stay, costs, mortality and cognitive impairment, generating high stress for the patient and relatives. Current interventions for its prevention involve early recognition, identification of modifiable risk factors and treatment of underlying conditions that predispose patients to delirium. Several specific pharmacologic interventions have been tested so far, with inconsistent results. Furthermore, nonpharmacologic interventions seem to be effective as preventive strategies. Considering your experience and expertise in this area, we hope that you will offer a scientific contribution to be published in this Special Issue.

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of  
Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPLus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
