

Special Issue

Diagnosis and Management of Cardiac Amyloidosis

Message from the Guest Editor

Cardiac amyloidosis has undergone major changes in recent years: first with the development of non-invasive diagnostic techniques that have led to an increase in diagnoses and, more recently, the development and improvement of treatments, particularly in the field of transthyretin amyloidosis. These developments have led the entire cardiology community to take an interest in this pathology and to set up collaborations between specialists to improve diagnosis and management. Cardiac amyloidosis leads us to reconsider cardiology from a new perspective, with a pathology that differs in all respects from other cardiomyopathies and requires dedicated knowledge and multidisciplinary management. For all these reasons, it seemed necessary to create a Special Issue on this topic. With this Special Issue, we hope to encourage submissions that discuss the current state of the art, address ongoing knowledge gaps, and focus on ongoing controversies and management related to cardiac amyloidosis.

Guest Editor

Prof. Dr. Olivier Lairez

Department of Cardiology, University Hospital of Toulouse, Toulouse, France

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
