

## Special Issue

# Diagnosis and Management of Cardiovascular Disease (CVD) during the COVID-19 Pandemic

### Message from the Guest Editor

As we know, COVID-19 reached pandemic levels in March 2020, resulting in almost 60 million confirmed cases and over 1.41 million deaths as of November 25, 2020. Several demographic and clinical characteristics are significant predictors of hospitalization and severe outcomes. COVID-19 disproportionately affects the African American and Hispanic populations, who have high rates of comorbid conditions and obesity. Regarding gender, male sex (at age 60 years or older) has shown a trend toward a higher risk of fatal outcomes in COVID-19 patients. With effective novel therapeutics and vaccines on the horizon, the direct and indirect consequences of COVID-19 continue to strain the practice of cardiovascular medicine. Understanding the current and future impacts of the COVID-19 pandemic on public health, patient care, cardiovascular management, and outcomes for patients with and without underlying cardiovascular diseases and risk factors is of the utmost importance. In this Special Issue, we welcome a diverse array of submissions that will increase the knowledge on the topic.

### Guest Editor

Dr. Jose Medina-Inojosa

Division of Preventive Cardiology, Department of Cardiovascular Medicine, Mayo Clinic Rochester, Rochester, NY, USA

### Deadline for manuscript submissions

closed (31 March 2024)

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
