Advances in Diagnosis and Treatment of Gynecological Malignancies

Message from the Guest Editor

Medical practice is moving towards personalized medicine by means of next-generation sequencing applied to solid or liquid biopsy. Advances in our understanding of the molecular alterations in various gynecological malignancies have enabled the development of increasingly more precise diagnoses, effective targeted therapies, and the prediction of accurate prognoses in the setting of modern immunotherapies. In addition to histopathology coupled with molecular diagnostics, pretargeting for imaging and therapy is gaining consensus in oncological nuclear medicine; moreover, robotic surgical techniques are now a reality. The aim of this Special Issue is to highlight recent advances in the full context of diagnosis and treatment of female cancers.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
