Current Concepts in the Diagnosis and Treatment of Musculoskeletal Tumors

Message from the Guest Editor

Musculoskeletal tumors can originate in bone or soft tissues. Primary benign and malignant bone tumors are uncommon, and most often affect children and young adults. Benign lesions are detected incidentally on imaging, although some patients present general symptoms such as pain or swelling. Sarcomas account for about 1% of all cancers. The management of musculoskeletal tumors requires a multidisciplinary team from the time of diagnosis through to the medical treatment, recovery, and rehabilitation. The oncologic outcome has improved in recent decades thanks to innovation in chemotherapy, radiation, and surgical techniques.

About the Journal

Message from the Editor-in-Chief

Journal of Clinical Medicine (ISSN 2077-0383) is an international, peer-reviewed, open access journal dedicated to advancing clinical and preclinical research. Our Editorial Board and staff are committed to delivering cutting-edge, timely, peer-reviewed articles spanning the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and impactful research articles, as well as reviews that are clinically significant and relevant to the full spectrum of medical disciplines. All full texts are archived in PubMed Central and indexed in SCIE (Web of Science), Scopus, PubMed, and other major databases. We invite you to submit your manuscript for publication, as well as join our community as a reviewer or reader online.

Editors-in-Chief

Prof. Dr. Emmanuel Andr s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.6 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2026).
