

Special Issue

New Diagnostic Assays for COVID-19

Message from the Guest Editors

The emergence of SARS-CoV-2 and the COVID-19 pandemic has posed significant challenges for clinical laboratories and medical device manufacturers. The herculean effort required to develop, validate, and manufacture diagnostic tools to respond to the emergence of this novel pathogen on a global scale has been unprecedented. As our knowledge of the pathophysiology and epidemiology of SARS-CoV-2 expands, novel and more refined diagnostic tools continue to be brought to market to support clinical and public health initiatives. However, as countries reopen their economies in an effort to return to pre-COVID normalcy, the need for innovative methods of assay deployment and utilization will be required to combat the spread of COVID-19. This Special Issue aims to present original research concerning the development and evaluation of novel SARS-CoV-2 diagnostic tools and testing modalities.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
