Novel Medical Approach to Diagnostic and Therapeutic Algorithms in Ophthalmology

Message from the Guest Editor

There is a broad spectrum of new developments in ophthalmology every year. Not all elements of these developments contribute to changes in clinical procedures in ophthalmology. The aim of this Topical Collection is to try to focus on those tools that have a chance to be implemented in new diagnostic and therapeutic algorithms. Increasingly, an ophthalmologist must use many fields of medicine, combine areas of knowledge and use tools that previously seemed distant from everyday clinical work. Genetic research, artificial intelligence, new imaging methods, and biomarkers are more and more often very helpful, but they require one to significantly expand our knowledge. The articles in this Topical Collection are intended to help to implement novel methods for everyday clinical approaches to diagnostics and treatment in different areas of ophthalmology.

Guest Editor

Prof. Dr. Edward Wylegala

Chair and Clinical Department of Ophthalmology, Faculty of Medical Science Division in Zabrze, Medical University of Silesia, Katowice, Poland

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
