Clinical Advances in the Diagnosis and Treatment of Uveitis

Message from the Guest Editor

For the last decades, there has been an increasing pace of progress in diagnosis and in new treatment options in patients who are suffering from uveitis.

Uveitis is an inflammation of the uvea. Evidence suggests that early diagnosis and more aggressive therapy improves ocular outcomes. This Special Issue compiles articles that reflect the current state of the art and are also indicative of some of the anticipated advances in diagnosis and treatment in uveitis.

- Uveitis
- Diagnosis
- New diagnostic testings
- Imaging
- New treatment strategies
- bDMARDS
- Small molecules

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi
