Advances in Dry Eye Disease Treatment

Message from the Guest Editors

It is recognized that the prevalence of dry eye disease is rapidly increasing, as is its burden, with an associated important need for research into new therapeutics. Conventional dry eye treatments include over-the-counter products such as tear substitutes, warm compresses, lid hygiene shampoo or ocular gauzes. Clinicians now have several other choices for patients who are unresponsive to traditional therapies, or suffering from severely dry eyes, including topical medications, blood-derived products, and different types of energy delivery devices. This Special Issue aims to collect contributions from distinguished authors who actively experience, in their own experimental and clinical work, the most innovative options for dry eye disease.

About the Journal

Message from the Editorial Board

Journal of Clinical Medicine (ISSN 2077-0383) is an international, peer-reviewed, open access journal dedicated to advancing clinical and preclinical research. Our Editorial Board and staff are committed to delivering cutting-edge, timely, peer-reviewed articles spanning the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and impactful research articles, as well as reviews that are clinically significant and relevant to the full spectrum of medical disciplines. All full texts are archived in PubMed Central and indexed in SCIE (Web of Science), Scopus, PubMed, and other major databases. We invite you to submit your manuscript for publication, as well as join our community as a reviewer or reader online.

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of
Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
