Innovations in Emergency and Critical Care Medicine

Message from the Guest Editor

Emergency and critical care medicine has long embraced frontier technology to treat the most ill patients. Breakthroughs in artificial intelligence, sensor miniaturization, and computational modeling are unlocking novel diagnostics and targeted therapies. AI-assisted decision support, portable imaging, and teleICU platforms compress the interval from presentation to intervention—yet many promising innovations still await the spotlight. This Special Issue strives to accelerate advances and improve outcomes for critically ill patients by showcasing cutting-edge work across the field. Manuscripts focusing on medical education, regional care networks, or international collaborations that push the frontier of emergency and critical care are encouraged.

Guest Editor

Prof. Dr. Yoshiaki Iwashita

Department of Emergency and Critical Care Medicine, Faculty of Medicine, Shimane University, Ennyacho89-1, Izumo 693-8501, Japan

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, University of
Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
