Endoscopic Therapy in Gastroesophageal Reflux Disease (GERD): Current Evidence, Techniques, and Future Perspectives

Message from the Guest Editor

Gastroesophageal reflux disease (GERD) remains one of the most prevalent gastrointestinal disorders worldwide, often leading to impaired quality of life and long-term complications. While pharmacologic therapy and surgical interventions have been standard management approaches, the emergence of endoscopic therapy offers a minimally invasive and increasingly effective alternative. This Special Issue aims to highlight advances in endoscopic modalities, including radiofrequency ablation, transoral incisionless fundoplication, and endoscopic suturing techniques. Emphasis will be placed on patient selection, clinical outcomes, safety, durability, and comparisons with established medical and surgical treatments. We welcome original research, clinical trials, and comprehensive reviews that expand the clinical evidence base and explore the evolving role of endoscopic therapy in GERD management within modern clinical practice.

Guest Editor

Prof. Dr. Pier Alberto Testoni

Gastroenterology and Gastrointestinal Endoscopy, La Madonnina Clinic, Vita-Salute San Raffaele University, 20100 Milan, Italy

Deadline for manuscript submissions

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of
Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPLus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
