

Special Issue

Advances in Colorectal Surgery

Message from the Guest Editors

Colorectal surgery has made significant progress in recent years, thanks to advancements in laparoscopic and robotic approaches and easy access to scientific websites worldwide. The main goal of this Special Issue is to highlight several subjects that can contribute to the advances in colorectal surgery. These include technical aspects of complex surgeries, which play a crucial role in the final results. Different surgical techniques can lead to better outcomes, so it is essential to determine when and how to utilize laparoscopic or robotic surgery. Furthermore, laparoscopic and robotic colorectal surgery require some tips and tricks to ensure success. A multidisciplinary approach can also aid in achieving better results. Additionally, reducing the rate of leak anastomoses involves addressing multiple factors, and ongoing debates about new techniques in colorectal surgery contribute to advancing the field.

Keywords: colorectal surgery; laparoscopic surgery; robotic surgery; surgical techniques; colorectal anastomoses; ileoanal pouches

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of
Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
