Recent Updates in Imaging of Rheumatologic and Neoplastic Musculoskeletal Diseases

Message from the Guest Editor

Musculoskeletal disorders, including injuries and rheumatologic disorders, remain one of the leading causes of disability. On the other hand, musculoskeletal tumors, though rare, may have devastating consequences if not recognized early and confidently. Integrated conventional imaging techniques, including radiographies, CT, MRI, and, in certain occasions, ultrasound, remain the main stays for the diagnostic assessment and surveillance of musculoskeletal diseases and constitute the basis for effective treatment decisions. Advanced techniques, such as functional imaging, enhance the diagnostic capabilities of imaging, whereas minimally invasive techniques using imaging guidance offer therapeutic benefits at lower cost and significantly less discomfort. This Special Issue aims to attract high-quality research and to promote the application of state-of-the-art imaging technology in science and clinical settings. We seek relevant cutting-edge research in the form of original articles or reviews, and we look forward to your contribution to provide the latest insights for scholars in this field.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of
Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
