Recent Advancement and Challenges in Cardiac Arrhythmias

Message from the Guest Editors

Sudden death can be the first manifestation of a lot of pathological conditions. Novel algorithms for the identification of sudden cardiac death risk have been proposed, but more efforts are necessary to avoid this dramatic event. On the other hand, overtreatment, particularly in young patients, is not necessarily beneficial and must be avoided. A tailored and multidimensional approach, involving clinical, genetic and imaging findings, is required and represents our goal in the next few years. This Special Issue of *Journal of Clinical Medicine*, "Recent Advancement and Challenges in Cardiac Arrhythmias", will focus on recent improvements and findings in the field of risk stratification for sudden death. Furthermore, papers are welcome that summarize the current state of knowledge related to specific diseases, underlining potential gaps in our evidence.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
