

## Special Issue

# Prostatectomy: Clinical Updates and Perspectives

### Message from the Guest Editor

This Special Issue focuses on recent advances and future prospects in the field of prostatectomy, an important surgical procedure for the treatment of prostate cancer and other prostate-related diseases. Robotic radical prostatectomy is an actual theme in urology. Innovation with single-port (SP) robotic radical prostatectomy has led to only a few studies and reviews. Although they investigate SP robotic radical prostatectomy, they lack enough to perform meaningful statistical analysis. However, preliminary data suggest that it is a safe procedure with comparable oncological and functional outcomes to standard surgery. We look forward to new insights into this topic. We invite researchers from around the world to submit their work showcasing new perspectives on prostatectomy. We look forward to receiving your submissions.

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of  
Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
