Clinical Advancements in Prosthodontics: Bridging the Gap between Function and Aesthetics

Message from the Guest Editors

Explore cutting-edge breakthroughs in prosthodontics in our upcoming Special Issue. This collection presents the latest research and innovations aiming to seamlessly integrate function and aesthetics in dental restorations. This issue covers diverse topics, including dental implant advancements, digital dentistry's role, and novel materials for prosthodontics. It delves into challenges of oral rehabilitation, occlusion considerations, and the impact of 3D printing on precise, patient-specific restorations. We invite contributions of clinical and pre-clinical research, reviews, case reports, and more. Join us in shaping the future of dental restorations and improving patients' quality of life.
