Modern Patient-Centered Dental Care

Message from the Guest Editor

In recent years, there has been a dynamic development of dental care due to the introduction of novel dental implants. The digital revolution, which also found its way into dentistry, has resulted in improved clinical workflows and approaches for new treatments, such as bone regeneration. All such innovations in the field of oral health are aimed to improve patient-centered dental care and promote their overall wellbeing. The aim of this Special Issue is to disseminate knowledge on the recent and innovative clinical means/approaches being developed to improve dental treatments.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!
