Clinical Therapy in Dementia and Related Diseases

Message from the Guest Editor

With the rapid aging of society, dementia has become a growing global concern, imposing substantial medical and economic burdens. At the same time, scientifically validated preventive strategies, non-pharmacological treatments, and approaches to enhance patients' quality of life (QOL) are increasingly recognized as essential. Clinical research and social support systems are pivotal areas of focus, demanding innovative solutions and interdisciplinary collaboration. This research topic seeks contributions addressing the following topics:

- Development of disease-modifying therapies (DMTs);
- Advancements in early diagnostic technologies;
- Lifestyle interventions for dementia prevention;
- Management of multimorbidity in dementia patients;
- Validation of non-pharmacological treatments;
- Genetic factors and personalized medicine;
- Targeted treatments for dementia subtypes;
- Improving care quality and nursing support;
- Digital health technologies in diagnosis and treatment;
- Other emerging dementia-related topics.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
