Maternal–Fetal Medicine: Clinical Updates and Perspectives

Message from the Guest Editors

Maternal–fetal medicine stands at the forefront of obstetrics, dedicated to optimizing outcomes for both mother and fetus during high-risk pregnancies. This Special Issue highlights the latest advances in screening, diagnosis, management, prediction, and prevention of pregnancy complications, including hypertensive disorders, gestational diabetes, fetal growth abnormalities, preterm delivery, and preterm rupture of membranes. Emphasizing both short- and long-term maternal and offspring health outcomes. We seek to illuminate not only the immediate clinical management of these complications but also their profound implications for long-term maternal cardiovascular, metabolic, and psychological health, as well as offspring development and disease risk across the lifespan. We invite submissions of high-quality original research articles and reviews. This Special Issue aims to advance scientific understanding of maternal–fetal medicine and translate these advances into tangible improvements in clinical care, ultimately contributing to healthier futures for mothers and their children.

About the Journal

Message from the Editor-in-Chief

Journal of Clinical Medicine (ISSN 2077-0383) is an international, peer-reviewed, open access journal dedicated to advancing clinical and preclinical research. Our Editorial Board and staff are committed to delivering cutting-edge, timely, peer-reviewed articles spanning the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and impactful research articles, as well as reviews that are clinically significant and relevant to the full spectrum of medical disciplines. All full texts are archived in PubMed Central and indexed in SCIE (Web of Science), Scopus, PubMed, and other major databases. We invite you to submit your manuscript for publication, as well as join our community as a reviewer or reader online.

Editors-in-Chief

Prof. Dr. Emmanuel Andr s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPLus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 16.6 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2026).
