Clinical Advances of Endoscopy in Pancreaticobiliary Disease

Message from the Guest Editor

The progress of endoscopy in the pancreaticobiliary field is remarkable. Various pancreaticobiliary diseases (early-stage pancreaticobiliary cancer, early-stage chronic pancreatitis, etc.), which were previously difficult to diagnose, have become more accurate with the progress of ERCP and EUS. Moreover, the new development of cholangioscopy and pancreatoscopy have brought further possibilities with high diagnostic ability. On the other hand, endoscopic treatment has also made significant progress. Therapeutic indications have expanded steadily, and new therapies that have never existed are being developed and implemented. In particular, the advancement of interventional EUS has revolutionized endoscopic treatment for pancreaticobiliary disease. In this Special Issue, we welcome authors to submit papers on the clinical advance of biliary and pancreatic endoscopy in terms of both diagnosis and treatment.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
