

## Special Issue

# Urologic Oncology: From Diagnosis to Treatment

### Message from the Guest Editors

Advances in diagnostic imaging, molecular and genomic profiling, and minimally invasive techniques have significantly enhanced our ability to detect, characterize, and treat genitourinary malignancies. Cancers of the prostate, bladder, kidney, testis—which once relied on limited diagnostic and therapeutic strategies—are now managed with precision-based approaches, improving both oncological control and quality of life. Robotic-assisted surgery and advanced ablative technologies are redefining surgical standards, while immunotherapy and targeted agents are transforming systemic treatment paradigms. However, they also present challenges regarding optimal patient selection, long-term outcomes, and integration into clinical practice. In this Special Issue, we invite contributions encompassing original studies, clinical series, and review articles that highlight innovations in diagnostics, surgical techniques, therapies, and the multidisciplinary management of urological cancers. Our aim is to provide a comprehensive overview of the evolving field of urological oncology and to stimulate a discussion on how these advances can best be translated into everyday practice.

## About the Journal

### Message from the Editorial Board

*Journal of Clinical Medicine* (ISSN 2077-0383) is an international, peer-reviewed, open access journal dedicated to advancing clinical and preclinical research. Our Editorial Board and staff are committed to delivering cutting-edge, timely, peer-reviewed articles spanning the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and impactful research articles, as well as reviews that are clinically significant and relevant to the full spectrum of medical disciplines. All full texts are archived in PubMed Central and indexed in SCIE (Web of Science), Scopus, PubMed, and other major databases. We invite you to submit your manuscript for publication, as well as join our community as a reviewer or reader online.

### Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of  
Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1  
(General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
