Clinical Procedures for Diagnosis and Treatment of Cardiovascular Diseases

Message from the Guest Editors

Cardiovascular diseases (CVDs) remain the leading cause of global mortality, accounting for nearly 18 million deaths annually. Despite advancements in medical science, the burden of CVDs continues to rise, driven by aging populations, sedentary lifestyles, and metabolic disorders. Early and accurate diagnosis, coupled with effective treatment strategies, is critical to mitigating this crisis. This Special Issue invites contributions on novel diagnostic tools, therapeutic techniques, and interdisciplinary approaches that enhance precision medicine in cardiology. Topics include but are not limited to non-invasive imaging advancements, AI-driven diagnostics, gene therapies, personalized treatment algorithms, and preventive strategies. By synthesizing insights from clinicians, researchers, and engineers, this collection aims to foster innovation, refine guidelines, and ultimately reduce the global burden of cardiovascular disease.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of
Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
