

Special Issue

Heart Failure and Coronary Artery Diseases: Cardiovascular Complications and Comorbidities

Message from the Guest Editors

We would like to invite you submit a manuscript for a Special Issue on heart failure and coronary artery disease, specifically dealing with cardiovascular comorbidities and complications. This area of research is trending because of newer advancements in diagnosis as well as management, thus significantly improving patient outcomes. Heart failure and coronary artery disease occur frequently together and are still a significant cause of mortality and morbidity. Hence, understanding the underlying pathology is essential. Certain newer improvements in this field include the following:

- Integrated care AI models focused on comprehensive patient care.
- Advanced diagnostics, including imaging and biomarker discovery, for early detection and monitoring of cardiovascular complications.
- Lifestyle modification to reduce the risk.
- Personalised treatment plan as per individual patient risk profile.

We encourage you to submit your [article types] to enrich your knowledge of heart failure and coronary artery disease.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!
