

Special Issue

Management in Dry Eye Disease: Current Strategies and Emerging Protocols

Message from the Guest Editors

For this Special Issue, we request submissions that advance understanding of Dry Eye Disease (DED) and its evolving management. We welcome original research, reviews, and clinical innovations focused on diagnostics, biomarkers, device-based interventions, and emerging treatment protocols. Contributions exploring ocular surface imaging, inflammatory pathways, biomarkers, and meibomian gland dysfunction are particularly valuable. Studies addressing digital-era risk factors, systemic contributors, nutrition, and personalised care strategies are especially encouraged. Our goal is to highlight cutting-edge approaches that improve patient outcomes, support practical clinical decision-making, and guide future practice in DED management across diverse healthcare settings and broader public health contexts.

Guest Editors

Prof. Sunil Shah

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of
Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
