

Special Issue

Clinical Research in Neuro-Ophthalmology

Message from the Guest Editors

We are thrilled to introduce 'Clinical Research in Neuro-Ophthalmology', a Special Issue dedicated to advancing the evidence base for neuro-ophthalmologic care.

Neuro-ophthalmology is an interdisciplinary field integrating neurology and ophthalmology to address visual dysfunction arising from disorders of the visual pathways. This Special Issue invites high-quality clinical studies that provide concrete insights into the mechanisms, diagnosis, and treatment of neuro-ophthalmic conditions. This Special Issue focuses on high-quality clinical research that advances understanding of neuro-ophthalmic disease mechanisms, diagnostics, and management. In line with the scope of the *Journal of Clinical Medicine*, submissions should emphasize reproducibility, detailed methodological reporting, and clear clinical relevance. Topics of interest include, but are not limited to, optic neuropathies, papilledema and intracranial hypertension, neuro-inflammatory and neurodegenerative disorders affecting vision, ocular motility and visual pathway disorders, AI-assisted imaging or electrophysiological analysis. We eagerly look forward to receiving your valuable research.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPLus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
