

## Special Issue

# Challenges and Innovation in Facial Plastic Surgery: Rhinoplasty, Reconstruction, and Aesthetic Medicine

### Message from the Guest Editor

Facial plastic and reconstructive surgery is replete with opportunities for research and innovation. Rhinoplasty, perhaps the signature operation of our specialty, is mastered over a lifetime, as are many of our nuanced operations. This volume dedicates substantial space to advances in cosmetic, functional, and reconstructive approaches. This Special Issue invites advances in facial paralysis, facial rejuvenation, and reconstruction of congenital and acquired deformities.

We are also looking to highlight frontier areas – translational research at the leading edge of innovation, from tissue bioengineering to implantable bionics and exploratory laboratory investigations. Facial plastic surgery – from rhinoplasty to rejuvenation to reanimation – continues to be a challenging and rewarding field with endless opportunities for leveraging new technologies and translating scientific discovery into advances in clinical practice. I invite you to join us in sharing advances and proven approaches for improving surgical outcomes.

## About the Journal

### Message from the Editorial Board

*Journal of Clinical Medicine* (ISSN 2077-0383) is an international, peer-reviewed, open access journal dedicated to advancing clinical and preclinical research. Our Editorial Board and staff are committed to delivering cutting-edge, timely, peer-reviewed articles spanning the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and impactful research articles, as well as reviews that are clinically significant and relevant to the full spectrum of medical disciplines. All full texts are archived in PubMed Central and indexed in SCIE (Web of Science), Scopus, PubMed, and other major databases. We invite you to submit your manuscript for publication, as well as join our community as a reviewer or reader online.

### Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of  
Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1  
(General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
