

# Special Issue

## Advances in Neurodegenerative Diseases

### Message from the Guest Editors

Neurological conditions are the leading cause of disability across the globe, currently affecting almost 15% of the worldwide population. Absolute patient numbers have substantially risen over the past 30 years and (on top of that) the burden of chronic neurodegenerative disorders is expected to at least double over the next two decades. This evolution is particularly due to a substantial expansion of the aging population. We want to dedicate this Special Issue to the challenging viewpoint that pushing boundaries in the field of neurology will be necessary to avoid a total overflow of that particular healthcare section, taking into account the above considerations. Research aimed at (a) improving our pathophysiological understanding, (b) outlining new strategies for disease prevention/modification/curation, (c) permitting early diagnosis/detection of disease progression, and (d) facilitating care delivery in chronic neurodegenerative disorders is deemed as essential to succeed in such a mission and defines the scope of this Special Issue. We welcome papers that demonstrate recent advances within this context.

### Guest Editors

Prof. Dr. Miguel D'Haeseleer

1. Center for Neurosciences, Vrije Universiteit Brussel, NEUR, Brussels, Belgium
2. Department of Neurology, Universitair Ziekenhuis Brussel, Brussels, Belgium
3. Nationaal Multiple Sclerosis Centrum, Melsbroek, Belgium

Prof. Dr. Jeroen Van Schependom

1. Center for Neurosciences, Vrije Universiteit Brussel, AIMS, Brussels, Belgium
2. Department of Electronics and Informatics (ETRO), Vrije Universiteit Brussel, Brussels, Belgium

### Deadline for manuscript submissions

closed (15 April 2023)

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
