Perioperative Management in Thoracic Surgery: Current Advances and Future Perspectives

Message from the Guest Editors

With the advancement of pathophysiological knowledge and technological evolution, the multidisciplinary approach to patients of interest in thoracic surgery has gained significant importance in clinical practice. This Special Issue aims to explore and analyze current achievements in the diagnostic and surgical fields concerning thoracic diseases, with a particular focus on lung cancer. We welcome contributions on a variety of topics, ranging from improvements in interventional techniques for lung cancer diagnosis and the preoperative optimization of surgical patients to the impact of minimally invasive surgical techniques on surgical outcomes. In particular, this Special Issue seeks to collect studies that align with the principles of Enhanced Recovery After Surgery (ERAS) in thoracic surgery, with the goal of improving and disseminating knowledge of this perioperative approach while also laying the groundwork for potential new protocols. We look forward to receiving your contributions.

Guest Editors

Dr. Roberto Cascone

Thoracic Surgery Unit, IRCCS Centro di Riferimento Oncologico della Basilicata, Rionero in Vulture, Italy

Dr. Alfonso Fiorelli

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi
