Trends and Innovations in Regenerative Medicine and Non-Surgical Aesthetics

Message from the Guest Editors

The field of regenerative medicine and non-surgical aesthetic procedures is undergoing a remarkable transformation, driven by innovative solutions that significantly enhance patient care and outcomes. These advancements are revolutionizing therapeutic and aesthetic treatments, offering new possibilities for both clinicians and patients. Regenerative medicine, with its potential to restore and regenerate damaged tissues, is becoming increasingly pivotal in clinical practice. Leveraging the body's intrinsic healing mechanisms through the use of stem cells, growth factors, and advanced therapy medicinal products (ATMPs), this field promises substantial advancements. Its applications range from wound healing and cartilage repair to the rejuvenation of aging skin, highlighting its broad therapeutic potential. Non-surgical aesthetic procedures are gaining unprecedented popularity due to their minimally invasive nature and reduced recovery times. Innovations in this domain include advanced dermal fillers, botulinum toxin A injections, laser therapies, and energy-based devices.

About the Journal

Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

Editors-in-Chief

Prof. Dr. Emmanuel Andr  s

Internal Medicine Department, University Hospital Strasbourg, 67000
Strasbourg, France

Prof. Dr. Kent Doi

Department of Acute Care Medicine, University of Tokyo, Tokyo, Japan

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1
(General Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.7 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the first half of 2025).
