

## Special Issue

# Hip and Knee Arthroplasty: Update on Clinical Management

### Message from the Guest Editor

Total hip and knee arthroplasties are among the most successful surgical interventions in modern medicine, providing substantial improvements in pain relief, function, and quality of life. This Special Issue offers a comprehensive, evidence-based overview of contemporary practices and emerging innovations in both primary and revision arthroplasty. The scope spans the entire perioperative pathway, covering advances in surgical techniques, perioperative optimization, infection prevention, multimodal analgesia, thromboprophylaxis, and enhanced recovery protocols. Modern alignment philosophies in total knee arthroplasty (TKA)—ranging from traditional mechanical alignment to patient-specific functional approaches—are highlighted, alongside the evolving role of robotic-assisted surgery. Furthermore, this Special Issue explores recent developments for complex reconstructions and personalized implant solutions.

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's (JCM)* staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Editors-in-Chief

Prof. Dr. Emmanuel Andrès

Internal Medicine Department, University Hospital Strasbourg, 67081  
Strasbourg, France

Prof. Dr. Kent Doi

Department of Emergency and Critical Care Medicine, The University of  
Tokyo, Tokyo, Japan

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1  
(General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
