

## Special Issue

# Atrial Fibrillation and Its Complications: Preventive Strategies and Relative Evidence—2nd Edition

### Message from the Guest Editor

We are pleased to announce the second edition of the Special Issue “Atrial Fibrillation and Its Complications: Preventive Strategies and Relative Evidence”, which comes as a result of the success of the first edition, in which we published 10 papers. For more details, please visit:

[https://www.mdpi.com/journal/jcm/special\\_issues/9VXHOM3C1X](https://www.mdpi.com/journal/jcm/special_issues/9VXHOM3C1X).

Atrial fibrillation (AF) is the most common cardiac arrhythmia in clinical practice, with rising incidence and prevalence globally. AF represents an increasing healthcare issue due to the multiple potential associated complications, including a 5-fold increase in stroke and heart failure, a 2-fold increase in myocardial infarction, as well as dementia and cognitive decline. Over the past decade, several therapeutic strategies have emerged in clinical practice with the aim of preventing such complications.

We are pleased to invite you to submit original research papers or state-of-the-art reviews for this Special Issue focusing on preventive strategies of AF and its complications, emphasizing both supporting evidence and limitations related to current pharmacological and interventional approaches.

---

### Guest Editor

Dr. Roberto Galea

Department of Cardiology, Inselspital, Bern University Hospital,  
University of Bern, 3010 Bern, Switzerland

## About the Journal

### Message from the Editorial Board

There has been an explosion of gene and target based research and therapeutics in the multitude of fields that compose clinical medicine. The *Journal of Clinical Medicine's* (JCM) staff and editorial board are dedicated to providing cutting edge, timely, and peer-reviewed articles covering the diverse subspecialties of clinical medicine. The journal publishes concise, innovative, and exciting research articles as well as clinically significant articles and reviews that are pertinent to the myriad of disciplines within medicine. The articles published are relevant to both primary care physicians and specialists. The journal's full-texts are archived in PubMed Central and indexed in PubMed. Please consider submitting your manuscripts for publication to our journal and check us out on-line!

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, CAPLus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (General Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 18.5 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
